

MONDAY JULY 10TH, 2017

Start	End						
11:30	2:30	Lunch/Registration					
2:30	4:30	Axial Fans 101	Axial Fans 102	Centrifugal Fans 101	Centrifugal Fans 102	Air Preheaters 101	Air Preheaters 102

TUESDAY JULY 11TH, 2017

Start	End						
7:30	8:30	Registration					
8:30	9:30	Opening Comments					
9:30	10:30	Review of 2016 Conference					
10:30	10:45	Break					
10:45	11:45	VARIAX Engineering Update: Technical bulletins	Centrifugals Current Issues Occurring: Fans taking a set on shutdown			Air Preheaters Development & testing: Element profile for gas firing applications	
11:45	12:30	VARIAX Hose failure testing & results Hydraulic cylinder testing	Centrifugals User Presentation: Best practices			Air Preheaters FEA work conducted in North American projects	
12:30	1:30	Lunch					
1:30	2:30	VARIAX Hub corrosion, seal solution Regulating drive assembly	Centrifugals Fan Testing			Air Preheaters North American APH site service/turnkey installation experience	
2:30	2:45	Break					
2:45	3:45	VARIAX User Only Session 1	TLT User Only Session 1			Air Preheaters Inspection check-list & common site issues	
3:45	4:45	VARIAX User Only Session 2	TLT User Only Session 2			Centrifugals Lessons Learned: Bearing oil leakage on open inlet fan	
4:45	5:00	End of day closeout					

WEDNESDAY JULY 12TH, 2017

Start	End	Morning Remarks		
8:30	8:45			
8:45	9:45	VARIAX User presentation Outage update	Centrifugals Practical effective vibration control through simple analysis	Air Preheaters Engineering update
9:45	10:30	VARIAX Turning gear	Centrifugals VIV maintenance & repair	Air Preheaters (repeat) FEA work conducted in North American projects
10:30	10:45	Break		
10:45	11:45	VARIAX User Presentation Outage update for Fall '16/Spring '17	TLT Retrofits Oil filled bags	Air Preheaters (repeat) Development & testing: Element profile for gas firing applications
11:45	12:30	VARIAX Noise, silencers	Fluid Drives Fluid drives vs. VFD	Air Preheaters (repeat) Inspection check-list & common site issues
12:30	1:30	Break		
1:30	2:30	TLT Operations Long term/rotor storage	Cooling Fans Cooling performance & noise reduction	Air Preheaters (repeat) North American APH site service/turnkey installation experience
2:30	2:45	Break		
2:45	3:45	VARIAX Follow-up to Users session #1	TLT Follow-up to Users session #1	Centrifugal How to reduce costs & have equipment last longer
3:45	4:45	VARIAX Follow-up to Users session #2	TLT Follow-up to Users session #2	Centrifugal User presentation Changing speeds with a two speed motor
4:45	5:00	End of conference closeout
